Bag Forming Units for Fine Packaging

Since 1981,

Formers by Ernie, Inc. has been a prominent manufacturer of high quality bag forming collars for both vertical and horizontal form/fill/seal packaging machines. By meeting or exceeding the original specifications on over 65 industry standard units, our customers can be assured of a product that is dependable.

Each unit is custom made from heavy gauge stainless steel with strict quality controls, which makes it easy for FBE to stand behind their workmanship with a full 1-year warranty

Ernie Sr. & Ernie Jr. Building a former

accurate measurement goes into each former that FBE produces.

We Feature 2-3 Week Standard Delivery on all Formers

Understanding that each customer has different needs, FBE also offers optional features such as Nitrogen Gas Flush Systems, Flat Bottom bag Attachments, Gusset Finger Attachments, Top/Side Zipper Modifications, Dust/Vacuum Nozzle Attachments, and various types of assembly coatings, to name a few.

By offering a standard 2 to 3 week delivery, on-site consulting, trouble-shooting, and repair/refurbishing of used or damaged units, Formers by Ernie is confident in their ability to provide each and every customer with a top-of-the-line, reliable product, and the 24-Hour/7 Days a week technical support they need.

Formers by Ernie's CNC machine produces precise quality parts for their formers.

Precise AutoCAD Drawings are done for each former to insure constant quality.

Forming Collar Options:

- Nitrogen Gas Flush Line(s) • Product Transition Funnels • Flat Bottom Bag Attachments • Gusset Finger Attachments • Creaser Roller Assemblies • Vacuum/Dust Port Top Zipper System • Side Zipper System • Oval Units • Round Units • Rectangular Units • Adjustable Crossover (Backseal) Side Seal • Lexan Funnels
